Profiles

 shubhamrsaroj

 theWhiteDevGod

Summary

Aspiring Full-Stack Developer building personal and open-source projects. Skilled in **React.js, Node.js, Express.js, MongoDB,Next.js and AI model integration**, with a passion for scalable web applications. Proficient in **Java, Python, Data Structures, and Algorithms (DSA)**, with basic knowledge of **PostgreSQL**. Strong problem-solving abilities and a focus on building efficient, user-friendly applications.

Experience

Earnest Data Analytics   Jul 2024
Full Stack Developer   Noida

Earnest Data Analytics | Duration: 1 Month

- Contributed to the development of full stack web applications using **Next.js**, **NestJS**, and **TypeORM**
- Assisted in building and optimizing reusable components and developing **RESTful APIs**
- Integrated frontend interfaces with backend services to ensure seamless user experiences
- Gained hands-on experience in **modern web architectures** and **data-driven feature development**
- Collaborated with cross-functional teams in a fast-paced environment to deliver scalable solutions

Dream Flights Private Limited   Aug 2024
Software Developer   Noida

Dream Flights | Duration: 1 Year 2 months

- Developed and maintained responsive user interfaces using **React.js** and **Tailwind CSS**
- Integrated **RESTful APIs** and handled API bindings to ensure dynamic and interactive frontend behavior
- Worked extensively with **PrimeReact** components to build clean and functional UI elements
- Deployed applications on **Microsoft Azure**, implementing **CI/CD pipelines** using **Azure DevOps** for smooth and automated deployments
- Collaborated closely with cross-functional teams to identify and resolve UI/UX issues, enhancing overall application performance and user experience
- Gained hands-on experience with **Azure Pipelining**, **DevOps workflows**, and cloud-based application deployment strategies

Education

Pillai College of Arts,Commerce and Science (Bsc)   2018-2021
Computer Science
7.2

Pondicherry Central University (Msc)   2021-2024
Computer Science
7.5

Projects

Task Manager Pro   2024
🔗 https://taskmanagerproo.netlify.app/

TaskManager PRO is an advanced task management app featuring secure authentication, role-based access (Admin, Manager, User), real-time Socket.io notifications, and a user-friendly dashboard. It allows CRUD operations on tasks, offers admin capabilities for user management, and provides task completion analytics with charts. The app also includes a modern dark mode UI for enhanced user experience.

VibeCoder   2024
🔗 https://peppy-snickerdoodle-ccc36f.netlify.app/

VibeCoder is an innovative developer platform that blends coding and creativity. Users can **listen to Spotify**, **draw UI components**, and instantly **convert drawings into React/HTML/CSS code**. It features an **AI-powered code editor**, a **component library**, and seamless **code reuse**. Built using **React**, **Node.js**, **MongoDB**, **MUI**, and **CSS**, VibeCoder boosts productivity with a unique and interactive coding experience.

SoulMagle   2024
🔗 https://github.com/shubhamrsaroj/SoulOmmagle

SoulMagle is an AI-powered video chat platform that connects users based on shared interests. It leverages **Google Firebase** for authentication and **AI embeddings** for intelligent matchmaking, enhancing user engagement.

Achievments

Google

Cracked Google's Coding Assessment and the phone screening interview for the Google Apprenticeship program (2025).
